

Olympics Solution

| | | | | |
|--------------------------|-------------------------|---------------------------|---------------------------|---------------------------|
| 18 Ar Argon | 6 C Carbon | 1 H Hydrogen | 68 Er Erbium | 39 Y Yttrium |
|--------------------------|-------------------------|---------------------------|---------------------------|---------------------------|

| | | | |
|-----------------------------|-------------------------|----------------------------|----------------------------------|
| 24 Cr Chromium | 8 O Oxygen | 74 W Tungsten | 110 Ds Darmstadtium |
|-----------------------------|-------------------------|----------------------------|----------------------------------|

| | | |
|-------------------------------|---------------------------|--------------------------|
| 114 Fl Flerovium | 47 Ag Silver | 16 S Sulfur |
|-------------------------------|---------------------------|--------------------------|

| | | |
|--------------------------|-------------------------|-------------------------|
| 53 I Iodine | 8 O Oxygen | 6 C Carbon |
|--------------------------|-------------------------|-------------------------|

| | | | | |
|-----------------------------|--------------------------|-------------------------|-----------------------------|--------------------------|
| 19 K Potassium | 53 I Iodine | 6 C Carbon | 19 K Potassium | 16 S Sulfur |
|-----------------------------|--------------------------|-------------------------|-----------------------------|--------------------------|

| | | | |
|------------------------------|-----------------------------|---------------------------|-----------------------------|
| 57 La Lanthanum | 24 Cr Chromium | 76 Os Osmium | 34 Se Selenium |
|------------------------------|-----------------------------|---------------------------|-----------------------------|

| | | |
|----------------------------|------------------------------|---------------------------|
| 75 Re Rhenium | 57 La Lanthanum | 39 Y Yttrium |
|----------------------------|------------------------------|---------------------------|

| | | | | |
|--------------------------|-------------------------|-------------------------|-------------------------|---------------------------|
| 16 S Sulfur | 8 O Oxygen | 6 C Carbon | 6 C Carbon | 68 Er Erbium |
|--------------------------|-------------------------|-------------------------|-------------------------|---------------------------|

| | | |
|------------------------------|------------------------------|--------------------------|
| 52 Te Tellurium | 95 Am Americium | 16 S Sulfur |
|------------------------------|------------------------------|--------------------------|

| | | | |
|------------------------------|---------------------------|---------------------------|--------------------------|
| 52 Te Tellurium | 7 N Nitrogen | 28 Ni Nickel | 16 S Sulfur |
|------------------------------|---------------------------|---------------------------|--------------------------|
